Summary

A summary of up to 150 words should state the purpose of any study or investigation.

Text

Abbreviations should not be used except for units of measurement.

If the paper is a review or work not presenting a scientific study, the usual format of "materials and methods, results and conclusions" need not be followed. All supporting work by others must be acknowledged and copyright permission obtained for the reproduction of illustrations.

Pages must be numbered, except for the title page. Copy should be supplied to the editor as a Word file using 11 point Arial font. Please do not use a smaller or larger font for the main body of the text or any other font style. Please use single line spacing only.

Main headings should be in **BOLD UPPER CASE**, with subheadings in **bold lower case**, followed by **bold italic** for further subheadings, and underline for headings subsequent to that.

Tables should be produced either as Word documents or Excel spreadsheets. Please do not send tables as photographs (jpeg, gif or tiff) as these cannot then be edited.

Colour photographs are preferred for illustrations other than line drawings. **Figures** should be provided with a minimum of 300 dpi resolution in the size that they are intended for publication.

References

References should be numbered using superscripts in the text. Please quote up to four authors, and the remainder as et al.
